MAKERSLOFT

MakersLoft offers structured programs that develop 21st century skills like creativity, problem solving, critical thinking, logical and analytical skills, in children *aged 2-15*. We do this through hands-on courses in *STEM (Science, Technology, Engineering, Math) subjects like Robotics, Coding, 3D Designing, Game Making, App Making, Artificial Intelligence* etc, that are not taught by schools but are the need of the hour. Our curriculum and content is at par internationally and we use the best and world-class tools and technology like *Lego*, Scratch etc. to teach students. Technology training is at the core of our expertise.

- A flat 15% discount across our courses for the duration of our association. Our courses are priced around Rs 8,000 – 12,500 per module of 16 sessions. Each course typically has 3 modules.
- Free online assessment of 30 minutes, followed by a counselling session, to recommend which course would be right for your child.
- A 5-session sampler for any course at Rs 2500 (regular price Rs 2950)
- Intimation about International Competitions and Olympiads that your children can participate in
Counselling session on technology for parents who are unsure where to start off their kids.

LEARN WITH
MOCHI

LEARN WITH MOCHI

Today's parents are often in a battle to fight screen addiction and engage their kids outside of the digital. Mochi is engineered specifically with this need in mind. It allows kids to learn the basics of coding and robotics through hands-on computer programming that does not require a screen!

A 20% discount on the Learn with Mochi coding bear. Visit their website <https://learnwithmochi.com/> and use code MOCHI_EO to avail the discount.
